HARNESS BAR FOR PORSCHE® CAYMAN MODELS

INSTALLATION BY A CERTIFIED TECHNICIAN IS ALWAYS RECOMMENDED

- The RSS Harness Bar bolts into the factory locations for the seat belt guide
- The seat belt guide (reverse lever) retains it's factory location by placing it through the provided hole in the base plate for the harness bar
- It is necessary to remove the factory support for the seat belt (987 803 825 00) in order for proper fitment and utilization of the factory bolt for mounting
- Careful trimming of the plastic interior components that come in contact with the harness bar will be necessary in order to complete installation
